ENGAGEMENT FRAMEWORK

HOW EVERY ENGAGEMENT WORKS.

PHASE 01

CONFIDENTIAL CONSULTATION

Every engagement begins with a confidential conversation. Senior practitioners respond directly. No sales team. No obligation.

PHASE 02

EXPOSURE ASSESSMENT

Digital footprint, travel patterns, facility exposure, insider risk, and threat vectors specific to the principal's profile and current circumstances.

PHASE 03

INTELLIGENCE INTEGRATION

Collection runs continuously. The analyst and operator work from the same picture, under the same command, in real time.

PHASE 04

PROTECTION DESIGN

Posture, personnel, and protocols calibrated to what the intelligence shows. Every action documented. Every decision defensible.

PRACTITIONER PROVENANCE

BUILT AT THE INTERSECTION OF FIVE DISCIPLINES.

• **OGA PROGRAMS**

• **ARMY INTELLIGENCE**

• **SPECIAL OPERATIONS**

• **TREASURY FINANCIAL**

• **FBI INVESTIGATIVE WORK**

No comparable firm has integrated all five disciplines. Most operate in a single lane. **Regent Intel was built at**

OPERATIONAL STANDARDS

THREE DISCIPLINES. ONE STANDARD OF ACCOUNTABILITY.

ISO 18788	Security Operations Governance
ICD 203	Analytic Standards
ICD 206	Sourcing Standards for Finished Intelligence
ISO 31030	Travel Risk Management
ISO 22320	Incident & Emergency Management
BEPP/ANSI	Business Executive Protection Program
ASIS PSC .1	Quality of Private Security Operations

the intersection of all of them.

ANSI/ASIS Inv.1 Private Sector Investigations
Standard

ISO 27001 Information Security Controls

NIST SP 800-30 Risk Assessment Framework

GOVERNMENT GRADE. COMMERCIAL SPEED.

Intelligence-driven. Doctrine-governed. Delivered
by practitioners who built the standard, not those
who borrowed it.
